Great workshop. Motivation was explained through well-known motivators like Anthony Robbins and Stephen Covey. Dr. Torvati modeled motivational research through use of colors, shapes + designs, methods, etc. Thank you. At!

This workshop was very informative. It taught some very key strategies that will help with my motivation and also help me to motivate my students. I had a wonderful time and will look forward to implementing these key strategies into my life.

The workshop was great
as always. I learned
new things I can easily
apply to my teaching & in
the relationships I form with
my students.

I am sad that this will be my last workshop of the summer. I have enjoyed all of them and hope our paths cross again. The discussions and reading materials were excellent today and I look forward to trying new approaches to motivating my students in the upcoming year.
