This course was very useful. The concepts were clearly stated & in a way that will be easily transferred to the classroom. Once again Dr. TORBATI was very knowledgeable & entertaining. If there was one thing I think that might have helped ~~more~~ would be more examples of creating from standards. (minor)

Emotional Intelligence was very interesting!!
There were various activities which engaged all the students, providing opportunities to talk and discuss the curriculum, videos, papers to read, hands on creative ways to take notes and record information. It was a fun learning atmosphere and I enjoyed myself as well as learning about the topic of Emotional Intelligence in the classroom.

Thank You Maryam!
